## APRIL

In the northern hemisphere April is a most confusing month; rainy and wet one day, the next full of a warm promise of green growth to come. Besides the weather, the month is full of surprises and contradictions, prized for rebirth and endings, and a birth month to amazing geniuses and crazed despots both, making fun of astrological predictions.

You must love April. It is just like life.

April is named after the Greek goddess of love, Aphrodite. In the Roman calendar, the fourth month of April is spelled Aprilis, meaning "to open." Festivals which were planned for April included Parrilla, a day celebrating the founding of Rome.

The name Aprilis, then, fits April, because in so many places in the northern hemisphere April is the month when trees and flowers begin to bloom and go on to flower.

Two flowers signify the month of April: the daisy and the sweet pea. The daisy symbolizes innocence, loyal love, and purity; but it also means "I'll never tell!" The oldest daisy on record is the *Bellis perennis*, known as Daeges eage (or Day's eye) in the Middle Ages because its petals close at night to cover the yellow center.

Today there are more than 90 varieties of flowers that are called daisies, and they come in red, yellow, purple, orange, blue, and pink colored petals, and vary widely in size. But they are, as director/writer Nora Ephron once wrote, "the friendliest flower."

The sweat pea signifies blissful pleasure and are used to say goodbye. Sweet peas may be a pretty flower, but they are also one of the oldest food crops on our planet, domesticated by humans about 11,000 years ago.

HAPPY SPRING

**The Crocus**  
by Miss H.F. Gould

Down in my solitude under the snow,  
Where nothing cheering can reach me;  
Here, without light, to see how to grow,  
I'll trust nature to teach me.

I will not despair, nor be idle, nor frown,  
Locked in so gloomy a dwelling;  
My leaves shall run up, and my roots shall run down,  
While the bud in my bosom is swelling.

Soon as the frost will get out of my bed,  
From this cold dungeon to free me,  
I will peer up with my little bright head,  
And all will be joyful to see me.

Then from my heart will young petals diverge,  
As rays of the sun from their focus;  
I from the darkness of earth will emerge,  
A happy and beautiful Crocus!

Many, perhaps, from so simple a flower,  
This little lesson may borrow—  
Patient to-day, through the gloomiest hour,  
We come out the brighter to-morrow.

*From The Crocus: A Fresh Flower For the Holidays (1849)*

# *I Wandered Lonely as a Cloud*

I wandered lonely as a cloud  
That floats on high o'er vales and hills,  
When all at once I saw a crowd,  
A host, of golden daffodils;  
Beside the lake, beneath the trees,  
Fluttering and dancing in the breeze.

Continuous as the stars that shine  
And twinkle on the milky way,  
They stretched in never-ending line  
Along the margin of the bay:  
Ten thousand saw I at a glance,  
Tossing their heads in sprightly dance.

The waves beside them danced, but they  
Out-did the sparkling waves in glee:  
A poet could not but be gay,  
In such a jocund company:  
I gazed - and gazed - but little thought  
What wealth the show to me had brought:

For oft, when on my couch I lie  
In vacant or in pensive mood,  
They flash upon that inward eye  
Which is the bliss of solitude;  
And then my heart with pleasure fills,  
And dances with the daffodils.

## The CVE Board's Corner

Board members will be in the clubhouse on the *first Saturday* of each month from **9am-10am**, for any homeowner who would like to express an issue.

## Picking Up After Your Dogs:

There are some residents or their guests not picking up after their dog. We are finding huge loads of poop and of course smaller loads.

It is disrespectful to the entire community and their guests. How would you feel if someone tracked dog poop into your home. I would think you would not like it. How difficult is it to pick up your dog poop. There is ***NO EXCUSE***, it is just irresponsible and lazy.

***ALSO:*** The Club House garbage cans located at the pool parking lot are ***NOT*** for your dog's poop. You need to carry your poop back to your home, use your own garbage cans like everyone else in this community that has a dog.

## HEALTH And WELLNESS

This month we will read about COVID, Smoking, Dementia & Tick Bites.

# CVE BOARD'S CORNER

## THE BOARDS CORNER FOR MARCH 2024

**Two Board members** will be available to meet with anyone at the clubhouse on 4/6 at 9am for any CVE issues.

### **MARK YOUR CALENDARS**

There will be an open community meeting on **May 21st at 6pm**. Prior to this meeting you will be receiving a notice from Touchstone Management, as 3 positions on the Board could be open to anyone wanting to be on the Board. If you are thinking about becoming a board member Touchstone will be collecting the names and resumes of any homeowner wishing to volunteer for the position. If anyone comes forward, the May community meeting will also be an election meeting. If no one comes forward, the Board will remain the same.

Agenda items for the May meeting will be posted next month.

### **ASSEMBLY PERMIT FOR THE CLUBHOUSE**

The last time the FIRE Marshall was here he pointed out some issues before he would approve us for a new assembly permit. There were no restrictions severe enough to warrant us not using the clubhouse. Since that visit all issues have been corrected and we feel confident that he will approve of giving us an assembly permit.

### **SPRING IS HERE**

You always know spring is here when we have so much activity in Country Village.

**Earth Care** (our fertilization company) has already been here twice to spray our trees and shrubs with dormant oil and fungicides. You should be aware that we use Earth Care because they do use organic pesticides that do not harm the environment. I am sure fertilization and weed prevention will be applied by April.

On March 19th and 20th, **Brookhaven Irrigation** checked the sprinkler system for defective sprinkler heads and turned on the system. We will not be watering any areas until May.

On March 20th, **Perfect Lawn Care** started their cleanup of the property. They are super-efficient and good at what they do so we do expect that the lawns and flower beds will look extra special this year. They will be weeding the flower beds outside of your patios at least once a month. Last year we were overrun with weeds but know that this year they will try to keep ahead of it. If you want any private landscaping, within your patio area, there is a signup sheet in the clubhouse. For anything outside of your patio please submit a maintenance request. They will prune shrubs twice a year. **Tree trimming is NOT done by the landscapers.**

### **DYMOND INDUSTRIES**

Did a wonderful job repairing potholes around Country Village. We apologize for not notifying everyone when it happened and for any inconvenience it may have caused.

As most of you know, Dymond Industries is the company that will be building the 14 new homes on the 3.9 acres of land we have bordering Mooney Pond Road. We are getting very close to breaking ground, and we hope to have a lot more to say about this at our open community meeting in May.

# CVE BOARD'S CORNER Cont.

## **HOMEOWNERS DIRECTORIES**

These were completed and handed out. At this time, we can only give out 1 per household, if any extra ones are needed, the cost is \$5.00.

The electronic format for this directory can also be found on our website at <https://country-village.net> Password is TheoDrive250

If any corrections are needed, please notify the Board member Linda Bily, who is our secretary, so that she can make any change needed.

## **HOMEOWNERS HANDBOOKS**

A new handbook is going to be finished soon. It is a good guide for all regarding the HOA's rules and regulations. It easily spells out responsibilities of the HOA and of the homeowner. It gives a synopsis of what is written in the offering book which is the 250 page Book that you received at your closing. We look forward to completing that shortly.

## **BOCCE COURTS**

We will be discussing and finalizing plans to install 2 new Bocce Courts. We have not finalized a start date as this is a costly project but will keep you aware of what will be happening. We know many enjoy this activity in the spring and summer and look forward to getting this accomplished.

## **FENCING SURROUNDING COUNTRY VILLAGE**

We had noticed that there were certain areas bordering our property that had fencing which had fallen, was worn or broken from age, and sections that were missing. All of those areas had either repair done or new sections of fencing installed.

## **SECURITY ISSUES**

The Board will continue to meet and investigate cost factors to get the best measures for increasing security. As mentioned previously we are looking into having.

- a) Cameras at the front gate,
- b) More lighting around the community especially in the back areas and courtyards,
- c) additional fencing in the front

## **NEW MANAGEMENT COMPANY**

We are pleased to inform you that we just signed a contract to start with a new management company. Their name is PMI Gold Coast Management.

The efforts in securing a new company have been tremendous. The finance committee along with the Board had many hours of interviewing many different companies. PMI stood out because of what they do and how they work with HOA's.

The transition to this new company will begin on April 1st and they officially begin on June 1st. This company will have many up to date ways of communicating with homeowners and the Board. We are certain that this will make day-to-day business easier and more efficient.

Certainly, we will have much to speak about at our community meeting and will answer any questions you may have about using a new company.

We look forward to meeting with a lot of you at the May 21st meeting.

## COMMUNITY BREAKFAST March 23, 2024

Once again, the Entertainment Committee had a spectacular spread for breakfast. Everyone enjoyed the delicious food provided by Coram Diner. There was a nice crowd of people, enjoying seeing everyone and having lovely conversations. It was a fabulous time; the committee should be proud of themselves for all the demanding work everyone knows they put into making it a success.

# HEALTH & WELLNESS

## **COVID-19**

***I am up to five COVID boosters, should I really be signing up for, yet another shot now?***

Yes, if you did not get a COVID vaccine this fall, you need to hustle and catch up. The most recent shot, which was released in September 2023, isn't actually a booster. It's a new vaccine that targets the latest variants. So even if you got the previous booster, you're not fully protected from the current versions of the virus.

Researchers who study the virus predict that COVID will continue to circulate throughout the winter, along with flu, RSV and other viruses that send hundreds of thousands of older adults to the hospital each year.

"One thing we have learned over the past three and a half years is that [the coronavirus] isn't a seasonal virus like the flu is. It is with us constantly," says David Montefiore, director of the Laboratory for AIDS Vaccine Research and Development at Duke University Medical Center. "And as immunity wanes in the population, we're going to continue to see increased numbers of infections and associated increased in hospitalizations and deaths."

The coronavirus vaccine could become an annual shot, like the influenza vaccine. Researchers are even working on a combined COVID-Flu vaccine, so a few years from now, a single shot from your doctor or pharmacy may be all you need to protect yourself fully.

## **SMOKING**

***I stopped smoking more than 20 years ago. All of a sudden, my doctor wants me to get a lung scan.***

Recent science indicated your lung cancer risk, even as a long ago smoker, may be higher than once thought. Since 2021, the U.S. Preventive Services Task Force has recommended screening for a wider range of former smokers, lowering both the age and the number of smokes that qualify individuals.

"There's a common misperception that if you already quit, you don't need to be screened for lung cancer," says pulmonologist Micheal Wert, M.D., medical director of the lung cancer screening program at the Ohio State Wexner Medical Center.

It's true that your risk for developing lung cancer drops every year from your quit date. But for former heavy smokers, even after 25 years, the odds of lung cancer remain three times as high as in never smokers, according to a study in the Journal of the National Cancer Institute. You should have an annual lung scan if:

- You're 50 to 80 years old and a former or current smoker.

You have a "20 pack year" smoking history. (Example: one pack per day for 20 years or two packs per day for 10 years.)

A low dose CT (computed tomography) scan checks for abnormalities in your lungs. "This is the easiest cancer screening technique that we have. There is no prep, and it takes a few minutes." Wert says.

## **DEMENTIA**

***Could relying too much on my smartphone for GPS, phone numbers, etc., be causing my recent decline in memory?***

Probably not. But some research indicates that smartphones can make older adults feel dumber, because they flood us with numerous data sources, while our natural decline in “cognitive flexibility,” or the ability to multitask, makes processing all this data more difficult.

Still, if you are concerned about your memory, speak to a doctor. Plenty of issues can toy with your memory, and many of them are fixable, including sleep issues and some medications.

“The earlier you can address your concerns, the more likely you can participate in your care and preserve your independence,” says Joel Salinas, M.D. clinical assistant professor of neurology and an expert on neurodegenerative diseases, dementia, and Alzheimer's at NYU Langone Health. Your doctor can ask a few questions about your recent habits and medicines and put you through a simple battery of tasks to get a handle on your brain health.

For people 65 and older with Medicare Part B, this kind of cognitive health visit is covered every year. Even if you are younger, it's worth checking. The remedies to your brain lapses may be easy, and if you are dealing with the start of real memory problems, the sooner you know, the sooner you can take steps to support your brain health and independence.

## **TICK BITES**

***Every few months, there's a warning about a new tickborne disease. What do I really need to worry about?***

There are several scary and relatively new diseases caused by ticks, including alpha-gal syndrome (which causes an allergy to red meat) and Powassan virus (a rare but often severe neurological disease). But it's the classics such as Lyme disease (the number of cases has roughly doubled since 2000, according to some sources) that you need to be aware of. Start with a trip to the doctor for a blood test if you experience a rash or flu like symptoms or are otherwise feeling crummy after a tick bite.

If you have a picture of the tick that bit you (or the actual tick, in a well-sealed container), bring it along with you, because that can help. Different ticks transmit different germs, says Thomas Mather, a tick expert and director of the University of Rhode Island's Center for Vector Borne Diseases, “so you need to really be able to distinguish between ticks to know what type of germ you might get.”

In some cases, your doctor may prescribe an antibiotic even before a diagnosis is confirmed, since early treatment is linked to better outcomes.

**TO REMOVE A TICK:** Use fine tipped tweezers. Grab as close to the skin as possible and pull straight up (rather than wiggling it out).

# Biggest List of Senior Discounts (March 2024)

## Senior Discounts: What You Should Know

# FUN AND GAMES

**Sudoku** is played on a grid of 9 x 9 spaces. Within the rows and columns are 9 "squares" (made up of 3 x 3 spaces). Each row, column and square (9 spaces each) needs to be filled out with the numbers 1-9, without repeating any numbers within the row, column or square. Does it sound complicated? As you can see from the image below of an actual Sudoku grid, each Sudoku grid comes with a few spaces already filled in; the more spaces filled in, the easier the game – the more difficult Sudoku puzzles have very few spaces that are already filled in.
